99TH CONGRESS 2d Session } SENATE { REPORT 99-368

MILITARY CONSTRUCTION APPROPRIATION BILL, 1987

AUGUST 5 (legislative day, AUGUST 4), 1986.—Ordered to be printed

Mr. MATTINGLY, from the Committee on Appropriations, submitted the following

REPORT

[To accompany H.R. 5052]

The Committee on Appropriations, to which was referred the bill (H.R. 5052) making appropriations for military construction for the Department of Defense for the fiscal year ending September 30, 1987, and for other purposes, reports the same to the Senate with various amendments, and presents herewith information relative to the changes made:

Amount of bill passed by House	$7,955,801,000
Amount of increase by Senate over the House	268,280,000
Total of bill as reported to Senate	8,224,081,000
Amount of 1987 budget estimate	10,137,200,000
Amount of 1986 appropriations (adjusted)	8,081,465,000
The bill as reported to the Senate:	
Under the budget estimate, 1987	1,913,119,000
Above appropriations for fiscal year 1986	142,616,000

BACKGROUND

Purpose of the Bill

The Military Construction appropriation bill provides necessary funding for the planning, design, construction, alteration, and improvement of military facilities worldwide, both for Active and Reserve Forces. It also finances the construction, alteration, improvement, operation and maintenance of all military family housing, including payments against past housing mortgage indebtedness. Certain types of community impact assistance are provided, as well as assistance to members who face loss on the sale of private residences due to installation realinements. The bill is also the source for the U.S. share of NATO infrastructure construction costs.

Comparative Statement

The fiscal year 1987 budget requests appropriations totaling $10,137,200,000. The following table displays this request, and compares it with the current fiscal year, the House amount, and the Committee recommendation:

Summary of the Bill

The Committee recommends a total of $8,224,081,000 in new budget authority/appropriations for fiscal year 1987 programs under its jurisdiction. Significant comparisons are noted below:

Fiscal year 1987 budget request: Budget authority	$10,137,200,000
Committee recommendation for fiscal year 1987: Budget authority	8,224,081,000
Which is—	
Over new budget authority granted in fiscal year 1986 by	142,616,000
Under the budget request by	1,913,119,000
Over the House bill by	268,280,000

Compliance With Section 308 of the Budget Control Act

Section 308(a) of the Budget and Impoundment Control Act of 1974 (Public Law 93–344) requires that the Committee include in its report a comparison of its recommendations with levels contained in the First Concurrent Resolution. Appropriate data are reflected below:

BUDGETARY IMPACT OF BILL

PREPARED BY THE CONGRESSIONAL BUDGET OFFICE PURSUANT TO SEC. 308(a), PUBLIC LAW 93-344, AS AMENDED

[In millions of dollars]

	Budget authority		Outlays	
	Committee allocation	Amount in bill	Committee allocation	Amount in bill
Comparison of amounts in the bill with the Committee allocation to its subcommittees of amounts in the First Concurrent Resolution for 1987: Subcommittee on Military Construction	8.2	8,224	7.9	[1]7,914
Projections of outlays associated with budget authority recommended in the bill:				
1987				[2]2,224
1988				2,929
1989				1,638
1990				756
1991 and future year				673
Financial assistance to State and local governments for 1987 in the bill		63		4
	Direct loans		Loan guarantees	
Credit authority estimates, fiscal year 1987				

[1] Includes outlays from prior-year budget authority.
[2] Excludes outlays from prior-year budget authority.

NOTE.—$202,000,000 in fiscal year 1987 outlays associated with titles II and III are to be scored to the relevant appropriations subcommittees, but not to military construction.

Committee Recommendation

As previously noted, the Committee is recommending new fiscal year 1987 appropriations of $8,224,081,000. This is $1,913,119,000 under the budget request and $268,280,000 above House allowances. The basis for this recommendation is contained in succeeding paragraphs for special interest items, and under the discussions pertaining to each individual appropriation.

ITEMS OF SPECIAL INTEREST

CONFORMANCE WITH AUTHORIZATION BILL

The Senate Armed Services Committee has reported the National Defense Authorization Act for Fiscal Year 1987 (S. 2638) which includes the authorization for military construction. The Committee has used the Senate-reported authorization as the basis for its recommendations. However, the Committee believes that several important projects which are not included in either S. 2638 or the House-passed military construction appropriation bill should be given further review. Thus, the Committee recommendation includes the following projects contingent upon authorization:

Army:	
Fort Campbell, KY: Aircraft maintenance hanger	$16,500,000
Dugway Proving Ground, UT: Community center	3,200,000
Navy:	
NSC Pearl Harbor, HI: Cold storage facility	11,500,000
Surface Warfare Officers School Command, Newport, RI: Officer training facility	8,800,000
Air Force:	
Andrews AFB, MD: Air Force One maintenance and support complex, phase I	25,000,000
Hill AFB, UT: Logistics Systems Operations Center	11,500,000
Morocco: Various locations: Petroleum resupply system	25,400,000
Defense Agencies: Fort Sam Houston, TX: Brooke Army Hospital, phase I	10,000,000

BASIS FOR COMMITTEE RECOMMENDATIONS

The Committee believes that the military construction appropriation is as important as any other appropriation in the defense budget. It is the military construction appropriation that sustains the vital $250,000,000,000 facility base of the Department of Defense which is one of our country's most important military assets. It provides the facilities needed to base the forces that insure the security of the free world, and it should never be neglected. The Committee understands the constant need to upgrade, augment, and replace portions of the facility base. It is an accepted fact that multibillion-dollar facility deficiencies exist. The appropriations recommended by the Committee will continue to sustain this vital facility base and will improve the readiness posture of our forces worldwide.

The Committee is concerned that for the past several years the Department of Defense's military construction requests have been reduced by a greater percentage than other defense appropriations. The Department of Defense continually, however, submits military construction re-

BEST COPY AVAILABLE

quests that represent major increases over the amounts provided by Congress in previous years. While this appears to be a signal from the Department that they are not satisfied with the military construction appropriation levels provided and are seeking increases, there is never any special emphasis placed on the military construction accounts by the defense leadership. The Committee has noted that in the past 2 years, when the military construction accounts have been requested as the highest and second highest individual accounts within the national defense request (050), that the Secretary's annual report to Congress barely mentions military construction. The Committee is fully aware that construction projects can wait in most instances and that there is relatively no outside interest in the program. Thus, it is essential that greater attention be placed on the program by the highest levels in the Pentagon for the overall program and not just for special items.

The Department of Defense must continue to carefully review its military construction program and submit sound, fully justified projects that support solid programs. This will provide the Congress with a basis for considering a higher level of military construction approvals.

DEGREE OF U.S. COMMITMENT OVERSEAS

The Committee believes our NATO allies are making a collective contribution to the defense of Europe. However, when results for individual countries are compared, it is true that these contributions are not consistent. Given the current conventional force imbalance between NATO and the Warsaw Pact, the Department has emphasized the need for both our allies and the United States to increase their defense efforts. The Committee believes progress is being achieved and supports efforts to reduce defense spending through closure and consolidation of bases worldwide. However, the delay of essential mission and support projects located at so-called low-priority installations, as suggested last year by the House, is not in consonance with the defense mission of the services. In a period of growing Soviet threat, operational considerations call for a dispersal of our forward-deployed forces instead of consolidating them into an increasingly target-rich environment. Many of the so-called low-priority installations are located along lines of communication in rear areas and are sufficiently dispersed to be defensible. Due to existing land constraints, relocation of these installations would be cost prohibitive and closure would result in inadequate training, communication, supply, housing, and ammunition support. As the Warsaw Pact threat continues to grow, the methods required for successful combat become more complex. Denying projects at so-called low-priority installations delays the Department's ability to effectively train service personnel and creates a false economy. Consequently, the Committee continues to support projects at so-called low-priority installations but expects the Department to explore reductions in overall deployment levels without jeopardizing the U.S. commitment to the NATO alliance.

BEST COPY AVAILABLE

EUROPEAN CONSTRUCTION PROGRAM

The Committee supports the House position on the overall European Construction Program and has taken a $10,000,000 general reduction against projects in Germany. This reduction is based not only on the concerns expressed by the House over delays in some German States to obtain appropriate construction permits, but also on the Committee's belief that the improved management of construction programs is real and, therefore, the accounts can sustain such a reduction.

NATO INFRASTRUCTURE PROGRAM

The Committee continues to support the NATO Infrastructure Program and recommends $232,000,000 to assure that the United States will be in a position to honor its financial commitments to the program during fiscal year 1987. The Committee has made a reduction of $15,000,000 to the budget request based on budgetary constraints.

The Committee is pleased with the progress being made in the recoupment of prefinanced funds. The current 6-year construction program for the "NATO infrastructure" account is expected to complete the recoupment of U.S. prefinanced project including the aircraft shelters mentioned in the House report. Because of the Committee's support for the improved program, there is no general provision included in this bill, as has been adopted in recent years, which tie obligations of the funds appropriated to a recoupment plan. However, the Committee will continue to carefully review the recoupment process to insure that it stays on schedule.

Increased participation by U.S. contractors—The Committee believes that U.S. contractors must be provided every opportunity to compete in the NATO Construction Program. Thus, the Committee endorses the House language which directs the Department to continue various efforts to provide equal opportunity to U.S. companies interested in NATO projects.

PERSIAN GULF/INDIAN OCEAN

The Committee has recommended continued support of construction programs in the Persian Gulf/Indian Ocean. The Committee has recommended, contingent upon authorization funds for a vital petroleum pipeline system in Morocco. The Committee understands that most facilities in this region are complete and that no major new projects or sites are envisioned. The Department should notify the Committee if future requirements amount to more than routine projects.

PACIFIC CONSTRUCTION PROGRAM

Philippines—The Committee recognizes the vital importance of our military installations in the Philippine Islands. The Committee has provided the full authorized level of funding for projects at Clark Air Base and Subic Bay Naval Base. The Committee believes that deferral of funds at this time would not be in the best interest of the United States.

BEST COPY AVAILABLE

CARIBBEAN BASIN

The Committee continues to endorse the so-called Caribbean Basin Initiative which has provided for expansion of U.S. access in the region. The Committee has approved a project in Honduras on the basis that it is necessary to meet special requirements for a unique mission. This project had been deferred in prior years to insure that this mission was permanent.

STIMULATING U.S. BUSINESS OVERSEAS

The Committee continues to support the so-called American Preference Program begun in fiscal year 1982 to insure that U.S. firms would be given a reasonable preference in the award of construction contracts in the Persian Gulf/Indian Ocean area. The Committee agrees with the House language which requires that all projects over $15,000,000 be advertised in the Commerce Business Daily.

Pacific area.—The Committee retained the provisions included in the fiscal year 1986 act with regard to construction contracts and an American Preference Program in the American territories of the Pacific and on Kwajalein and Johnston Islands.

Architect/engineer contracts.—The Committee has retained the general provision included in the fiscal year 1986 act which restricted architect and engineering contracts in Japan and NATO countries over $1,000,000 to U.S. firms and U.S. firms in joint venture with host nation firms.

FINANCIAL MANAGEMENT

The Committee joins with the House in applauding the progress made during the past year toward improved management of construction funds. As did the House, the Committee directs that all the policies adopted last year continue during fiscal year 1987. The Committee will review during its consideration of the fiscal year 1988 budget any concerns the Department may have over these policies. The Committee believes that at least a year should pass before any changes are adopted to insure that these policies are being given a fair consideration.

Planning and design.—The Committee endorses the House language on the intent of the Committee with regard to the limitation on split funding of projects.

Use of expired funds.—The Committee supports the House position on this matter involving the supervision, inspection, and overhead [SIOH] associated with completion of projects after 5 years.

PACKAGING OF CONTRACTS OVERSEAS

The Committee continues to support the packaging of contracts in order to increase the potential for U.S. firms to successfully bid overseas projects, and also to take advantage of economies of scale. The Committee also recognizes the importance of identifying projects to be packaged early in the design process in order to synchronize the design

BEST COPY AVAILABLE

effort of the different facilities involved and to permit development of efficient contract packages. In this light, the services are directed to consolidate, to the maximum extent practical, similar overseas MCP work into single contracts, where doing so will result in contracts over $10,000,000. Since successful execution of this policy is subject to many regional factors which may vary significantly from year to year, and since the services are sensitive to how these factors impact their particular facilities, the Committee defers the actual base and project selections to the services and directs congressional notification on results of packaging be provided by June 1, 1987.

Reprogramming criteria.—The Committee is encouraged by the establishment of audit trail documents and limitations on split funding for fiscal year 1986 appropriations to improve the financial management of construction funds under the military construction appropriation. The Committee supports the position taken by the House to continue the existing reprogramming policies.

Renovation of facilities—Minor construction.—The Committee endorses the new authority on renovation of facilities. The Department desires to reduce separate design, procurement, contract management, and accounting complexities where they serve little or no regulatory or oversight purpose. To provide assurance that the work is truly renovation and not simply a disguised minor construction project, the Committee recommends a clarification of the proposed language in the authorization bill including certification of the maximum amount of minor construction work included in each project.

The Committee directs that the Secretary concerned may spend, from appropriations available for operation and maintenance, amounts to carry out interior renovation of an entire existing single-purpose facility or one or more functional areas of an existing multipurpose facility, combining maintenance, repair and minor construction efforts. No new facilities or additions to facilities may be constructed nor the functional use changed under the authority of this subsection. The total amount so spent on each such renovation shall not exceed the maximum amount specified by law for a minor military construction project. Furthermore, using an engineering estimate, the approving authority will certify that the portion of the renovation that would normally have been minor construction would not, if accounting for separately, exceed 20 percent of the amount specified by law as the maximum amount for a minor military construction project.

Foreign Currency Fluctuation Fund.—The Committee agrees with the House on the request to establish a Foreign Current Fluctuation Fund. This fund is not new and was previously used in the military construction accounts. Its establishment provides the military construction accounts with the same flexibility to manage as provided in the Defense appropriations bill for its accounts.

ALTERNATE CONSTRUCTION METHODS: PACKAGING OF CONTRACTS

The Committee recognizes that in order to effectively package construction contracts, the decision must be made early in the design process. Further, the Committee notes that it does not always make contracting sense to package all projects at a particular location, nor does it make sense to select installations without service input. The service has a legitimate need to maintain the flexibility of when to award individual contracts. The Committee also recognizes that the potential economy of size savings from packaging are not as great as implied by the fiscal year 1986 reductions, and may not attract as many U.S. firms as expected based on recent experience. In view of this, the Committee directs each service to continue to pursue this policy to the maximum extent possible with the intent to increase both successful bidding competition by U.S. firms and overall projects cost efficiencies.

Modular construction.—The Committee recognizes that in order to economically fabricate and erect effective modular structures on a timely basis, a decision must be made early in the design process as to the method of construction. A change to modular construction of a project nearly designed would require total project redesign with consequent additional cost and delay in occupancy of the new facility. The practicality of an alternate construction concept is based not only on the economics of the construction cost, but includes total cost of operation and maintenance over the life of the facility. The Committee is concerned that the life-cycle cost of this facility would be significantly reduced by changing the construction method to modular construction. Further, most unaccompanied housing is typically concrete or masonry for durability and ease of maintenance; and these standards do not necessarily lend themselves to modular construction techniques.

Based on these considerations, the Committee urges the Deprtment to continue to select the best method of design and construction in order to achieve both acceptable standards and low life-cycle costs, but also continue to look at alternatives such as modular construction.

Planning and design.—The Committee supports the House position that better management of the planning and design requests at the OSD level should be implemented to avoid reprogramming requests in this account.

Value engineering.—The Committee urges the Department to make every effort to insure that the potential cost savings from value engineering are incorporated into every project requested.

Architect and engineer liability.—As the Committee has stated in the past, every effort must be made to vigorously pursue claims arising from architect and engineer liability on military construction and family housing projects.

ENERGY

The Committee supports the Defense Department's Energy Conservation Program. The Committee notes that the fiscal year 1987 request is substantially less than that appropriated in fiscal year 1986. The Com-

BEST COPY AVAILABLE

mittee assumes, however, that continued emphasis will be placed on all forms of energy conservation methods from ceiling fans to geothermal.

MINOR CONSTRUCTION

In its consideration of the fiscal year 1986 bill, the Committee reduced the various unspecified minor construction accounts by approximately 50 percent This reduction was based on the Committee's belief that the accounts were not being utilized as intended. The Committee has reviewed the programs carefully during fiscal year 1986 and is encouraged by the improved management in these accounts.

Notification procedures.—The Committee directs that the Deprtment continue the policy on notification of minor construction projects established last year.

Increase in minor construction limitation.—The Committee agrees with the House that no increase in the minor construction limitation will be approved and that line item integrity of the fiscal year 1987 program as shown in the project listing at the end of this report will be maintained for purposes of reprogramming and execution.

Reductions in unspecified minor construction requests.—As the House has stated, the Committee will not entertain huge lump sum requests for unspecified minor construction. The Senate authorization bill has adopted this policy in its consideration of the fiscal year 1987 budget. This policy has presented significant problems for the Committee in that lack of sufficient authorization has forced the Committee to provide no funds for the unspecified accounts as well as taking general reductions for minor construction projects. The Committee expects to correct this matter in its conference with the House.

Renovation of facilities.—The Committee disagrees with the House on this matter and has discussed the proposal earlier in this report.

EXERCISE-RELATED CONSTRUCTION

The Committee objects to the House proposal that exercise-related construction be dramaticallly changed in its accounting. Any change to such a program should be included in the authorization bill and put into statute. Also, this matter falls under the jurisdiction of the Defense Appropriations Subcommittees, not the Military Construction Subcommittees. While there may well be some worthwhile changes suggested in the House language, report language is inappropriate and in the wrong legislation to make any such change.

ARMY LIGHT INFANTRY DIVISIONS

The Committee is aware that in 1983 the Joint Chiefs of Staff determined that an increase in Army divisions would be required to provide a credible deterrence by 1988. The combined Active, Reserve, and National Guard divisions then totaled 24. Since Active units provide an immediate enhancement to deterrence, the Army decided to modify its force structure by forming light, deployable divisions. As a result of this effort, two additional divisions have been added to the Active Army.

BEST COPY AVAILABLE

The Committee understands that in determining where two new light divisions would be stationed, the Army considered five options consisting of single sites and combinations of sites. Full consideration of operational requirements, environmental impact, cost to the taxpayer, and public comments led to the selection of Fort Drum and Alaska.

The Committee supports the position taken by the Commander in Chief, Pacific, which identified the need for additional troops to protect 81 key sites in Alaska and the Aleutians. To meet this requirement, 3,400 additional Active component soldiers will be added to forces already stationed in Alaska to form the 6th Infantry Division (light). When an emergency arises, if strategy and the situation dictate, these forces can remain in Alaska. If not, they can be rapidly deployed where needed.

The Committee supports the Army's decision to activate the 6th Light Infantry Division in Alaska. It provides the means to protect vital strategic interests in that region, enhances deterrence by providing additional Active combat battalions, and provides additional combat forces which can be rapidly deployed to meet contingencies worldwide.

The Committee recommends $180,000,000 for projects in support of the Fort Drum, NY, basing of the 10th Infantry Division. The Committee has not, however, provided advance appropriations as has the House due to lack of Senate authorization. The Committee recommendation of this initial increment of funds for Fort Drum in itself shows the support for future programs will undoubtedly be forthcoming.

The Committee recommendation for the 6th Infantry Division in Alaska is $140,900,000, including family housing. These moneys will allow for modernization and expansion of facilities at Forts Wainwright and Richardson.

NAVY STRATEGIC HOMEPORTING INITIATIVE

The Committee has provided the level of funding authorized by the Senate Armed Services Committee in its report to Senate bill 2638. The Committee supports the homeporting initiative and has discussed the issue in detail in the Navy section of the report.

STRATEGIC DEFENSE INITIATIVE CONSTRUCTION

The Committee has recommended the full authorization level as reported by the Senate Armed Services Committee in Senate bill 2638. The Committee notes that the House report endorsed the program even though no funds were provided due to lack of authorization.

The Committee endorses the House language which directs the SDI Office to report on all construction funded to date. Also, the Committee directs that a 5-year construction plan be submitted as part of this report.

The projects included in the Committee recommendation include the following:

BEST COPY AVAILABLE

California: Edwards AFB: Rocket propulsion brilion lab	$4,140,000
Hawaii: Pacific Missile Range: Intermediate ballistic missile launch complex	2,890,000
New Mexico: White Sands Missile Range: High endo missile defense intercepter launch complex	1,930,000
Kwajalein: Missile Range: Target launch complex	1,340,000
Total	10,300,000

PROGRAM, PROJECT, AND ACTIVITY

For purposes of section 252(a)(6)(D)(i)(II) of Public Law 99–177, the Committee defines the term "program, project, and activity" as the accounts as noted in the bill to accompany this report. The Committee has taken this position versus the House position on the line item basis because of the costs which resulted in fiscal year 1986 from the Gramm-Rudman-Hollings cuts as directed by congressional budget process.

The line item definition resulted in extensive redesign of the program estimated to have cost more than $15,000,000. By allowing the cuts, if necessary, to be taken at the account level, it allows the services to better manage their accounts and save planning and design resources.

The Committee, however, expects the Department of Defense and the services to request prior approval before deferring any project which has received an appropriation. Committee approval of such a request will be automatic after a 21-day period from the date of the request.

CLARIFICATION OF REDUCTIONS

Due to the pressures of providing a reasonable military construction program while meeting the current budget limitations, the Committee has made reductions to several projects. In some cases, the services will be able to meet these reductions with value engineering, alternate construction methods and materials, packaging of projects, or other cost-saving techniques. In some cases, the Committee has directed that the project be built at a reduced scope.

In the cases where the Committee has directed scope reductions, the Department is limited to the programmed amount, and any increases above the approved amount must be approved through the regular reprogramming process. For all other reductions, the Department has the usual flexibility to transfer funds in accordance with the established reprogramming thresholds.

General reductions.—In any effort to allow the Department flexibility in managing its programs during these times of budgetary constraint, the Committee has recommended several general reductions for specific categories of projects as well as overall general reductions. The Committee believes that by allowing the Department to work with specific groups of projects, rather than deferring specific line items, that more facilities can be procured. The Committee is aware that each project presented with a requested dollar amount is an estimate. Estimates can be high or low. The reprogramming procedures established by the

BEST COPY AVAILABLE

Committee allow for the fact that the estimates may not be exact. The Committee is hopeful that the Department will use these general reductions to insure that the best facilities at the best price are procured. The general reductions are as follows:

Army:	
Projects in Germany	$10,000,000
Provisions of Davis-Bacon in S. 2638	8,000,000
Navy:	
Trident facilities (except community assistance), Kings Bay, GA	10,000,000
Staten Island, NY (strategic homeporting initiative)	6,000,000
Everett, WA (strategic homeporting initiative)	10,000,000
Overall general reduction and provision of Davis-Bacon in S. 2638	33,900,000
Air Force:	
B-1B facilities, McConnell AFB, KS	2,000,000
B-52 facilities, Wurtsmith AFB, MI	1,000,000
KC-135R facilities, Malmstrom AFB, MT	2,000,000
B-1B facilities, Grand Forks AFB, ND	2,400,000
B-1B facilities, Minot AFB, ND	3,000,000
Projects in Korea	4,000,000
Overall general reduction and provision of Davis-Bacon in S. 2638	16,700,000
Defense agencies:	
Army medical facilities	10,000,000
Provisions of Davis-Bacon in S. 2638	1,000,000
Army family housing: Construction account	30,000,000
Navy family housing: Construction account	6,500,000
Air Force family housing: Construction account	7,000,000

COMMERCIAL FRANCHISE OPERATIONS

The Committee has reviewed the status of efforts underway to increase the numoer of commercial franchise business operations on military installations. Both the Army and Air Force Exchange Service [AAFES] and the Navy Resale and Services Support Office [NAVRESSO] have entered into contract agreements with private corporations to establish name brand, fast food franchises on military installations. The Marine Corps exchange system [MCES] does not have a similar, systemwide contract, but has awarded franchise concessions on an individual contract basis. Unlike the NAVRESSO and NCES franchise operations which award their contracts to individual concessionaries, AAFES owns and operates the facilities constructed under the terms of its contract.

The Committee has completed its review of the information provided by the Department of Defense under the requirements of section 127, Public Law 99-173, and section 1209(a), Public Law 99-145, which addressed questions concerning the impact of these activities on off-base economies; the rationale for initiating franchise programs; and the need for congressional notification and review of these initiatives. The Committee agrees that these activities do yield morale and welfare benefits for the military community, both through the services they provide and the nonappropriated fund profits they generate. However, the Committee finds that the Department of Defense has developed no effective way to address the potential adverse impact of on-base commercial activities on competing private enterprises, and generally does not take

BEST COPY AVAILABLE

into account the other potential losses of revenue which can occur in the surrounding civilian communities.

All three exchange systems are encouraged to provide early notification to off-base business communities when a military installation is being considered as the location for such commercial franchise operations. The Committee expects the comments received in response to such notice to be a part of the decisionmaking record of the exchanges, and should be accorded proper consideration prior to a final decision. Notificaton shall also be provided to the appropriate congressional committees before contracts are solicited.

In addition, the Committee understands that AAFES officials do not believe that it is beneficial to establish more than one exchange owned and operated, commercial fast food activity on a military installation. The Committee believes this is prudent, endorses this policy, and believes other exchange services should adopt similar policies.

Finally, in an effort to obtain the data necessary for a true comparison of the relative advantages and disadvantages of franchise operations owned and operated by the exchange systems such as the AAFES operates, compared to the individually, privately owned establishments operated under the terms of the NAVRESSO and MCES contracts, the Committee encourages the AAFES to operate a minimum of one franchise facility under this concession basis. The information obtained from such a comparison will be of value to the Committee in its evaluation of the effectiveness of the overall franchise program.

DOD FACILITIES IN WEST VIRGINIA

The Committee understands the need to accelerate the military construction program contemplated for West Virginia which has been raised in hearings before the Senate Committees on Armed Services and Appropriations. The matter was the subject of discussion on the Senate floor. This need to accelerate the program has been the subject of correspondence with high-level military officials as well as discussions with the Secretaries of the Army and Air Force. The thrust of these discussions has been that early construction of these various projects will help provide much needed jobs; avoid the costs of inflation associated with delayed construction; and provide modern, updated facilities for use by military personnel in West Virginia. The Committee supports these arguments and directs the Department of Defense to redouble its efforts to accelerate the design of the various projects and to incorporate them into the fiscal year 1988 President's budget so that they may receive early consideration by the appropriate committees of Congress.

Advance appropriation, 1989	162,000,000
House allowance	1,200,070,000
Advance appropriation, 1988	221,000,000
Advance appropriation, 1989	214,000,000
Committee recommendation	1,262,570,000
Advance appropriation, 1988	
Advance appropriation, 1989	

The Committee is recommending an appropriation of $1,262,570,000 for the Army for fiscal year 1987. This amount reflects a decrease of $432,630,000 to the budget request and an increase to the House proposal in the amount of $62,500,000.

Specific program changes in the Committee recommendation are discussed below: (See project listing at the end of the report for complete program recommendations.)

AUTHORIZATION REDUCTIONS

Budgeted projects.—The following projects were requested as part of the budget but have not been authorized by the Senate and, therefore, are not recommended by the Committee:

Alaska: Fort Wainwright: Tactical equipment shop	$30,000,000
California: Fort Irwin: General purpose warehouse	2,050,000
Georgia: Fort Benning: Vehicle wash facility	4,000,000
Kansas: Fort Riley: Child development center	4,250,000
Kentucky: Fort Knox: Applied instruction facility	3,200,000
Maryland: Aberdeen PG: Applied instruction facility	23,000,000
Missouri: Fort Leonard Wood: Applied instruction facility	16,000,000
Nevada: Hawthorne AAP: Ammunition surveillance facility	7,000,000
North Carolina: Fort Bragg:	
Aerial gunnery range	2,350,000
Tactical equipment shop	8,200,000
Oklahoma: Fort Sill: Vehicle wash facility	3,050,000
Texas:	
Fort Hood: Academic instruction facility	2,750,000
Fort Sam Houston: Child development center	2,900,000
Virginia: Fort Belvoir: Child development/religious education facility	5,600,000
Washington: Fort Lewis: Tactical equipment shop	4,400,000
Panama Canal Zone: Fort Kobbe: Aircraft parking apron extension	420,000
Germany:	
Bad Kreuznach: Facility modernization	10,200,000
Bamberg: Facility modernization	18,000,000
Giessen: Facility modernization	16,000,000

Germany—Continued	
Hanau: Aircraft maintenance hangar	$7,100,000
Schweinfurt: Facility modernization	16,000,000
Vilseck:	
Commissary sales store	7,300,000
Exchange shopping center	8,000,000
Greece: Drama: Operations building modernization	730,000
Korea: Camp Greaves: Tactical equipment shop	340,000
Worldwide various: Minor construction unspecified	20,000,000

OTHER PROGRAM CHANGES

Projects deferred due to budgetary constraints.—The Committee is deferring without prejudice a number of projects due to constraints on the budget. The Committee believes that while these projects are important their deferral will not have any adverse impact on readiness. The projects deferred are as follows:

Arizona: Fort Huachuca: General instruction building	$8,200,000
California: Presidio of San Francisco: Barracks	5,100,000
Massachusetts: Fort Devens:	
Academic instruction facility	9,500,000
Academic instruction facility	6,800,000
North Carolina: Fort Bragg: Special forces mission support facility	6,500,000
South Carolina: Fort Jackson: Applied instruction facility	1,300,000
Virginia:	
Fort Eustis: Applied instruction facility	2,050,000
Fort Lee: General instruction building addition	7,600,000
Fort Myer: Gym	3,800,000
Germany:	
Aschaffenberg: Tactical equipment shop	3,350,000
Giessen General Depot: Facility modernization phase III	970,000
Hanau: Facility modernization	11,000,000
Hohenfels Training Area: Combat maneuver training complex	8,800,000
Karlsruhe: Facility modernization	10,000,000
Schweinfurt: Tactical equipment shop	13,600,000
Greece: Operations building	560,000
Planning and design (partial reduction)	3,200,000

House deferrals.—The House deferred funding for the projects listed below due to lack of House authorization which the Committee believes are fully justified and, therefore, has recommended appropriations as noted:

Alabama:	
Anniston Army Depot: Security upgrade	$1,950,000
Redstone Arsenal: Microwave/millimeter wave simulator	19,500,000
Alaska:	
Fort Richardson: Barracks modernization	11,200,000
Fort Wainwright:	
Barracks modernization	21,000,000
Child development center	11,000,000
Dining facilities	16,500,000
Tactical equipment shop	7,300,000
Tactical equipment shop	9,900,000
Utilities expansion	31,000,000
Arizona: Navajo Army Depot: Security upgrade	3,900,000
California: Sierra Army Depot: Security upgrade	2,450,000

BEST COPY AVAILABLE

Colorado: Pueblo Depot activity: Security upgrade	$600,000
Hawaii: Various locations: Operations support facility	12,000,000
Kentucky:	
Fort Campbell:	
Aircraft maintenance hangar	16,500,000
Fuel pumping station	240,000
Lexington-Bluegrass Depot activity: Security upgrade	540,000
New Mexico: Fort Wingate: Security upgrade	350,000
New York: Seneca Army Depot: Security lighting	1,100,000
Oregon: Umatilla Army Depot: Security upgrade	1,050,000
Pennsylvania: Letterkenny Army Depot: Security upgrade	1,900,000
Texas:	
Corpus Christi Army Depot: Aircraft maintenance shop addition	2,150,000
Red River Army Depot: Security upgrade	1,350,000
Utah:	
Tooele Army Depot: Security upgrade	1,850,000
Dugway Proving Center: Community center	3,200,000
Germany:	
Baumholder: Facility modernization phase IV	12,400,000
Einsiedlerhof: Training exercise facility	4,750,000
Frankfurt: Crime lab modernization/addition	3,500,000
Rheinberg: Various facilities	29,150,000
Wartime host nation support	4,500,000
Vilseck:	
Chapel/religious education facility	3,450,000
Post office	1,300,000
Wildflecken: Vehicle wash facility	3,800,000
Honduras: Contingency facility	4,900,000
Overseas various: Preposition war material facilities	4,900,000

House reductions.—The House made reductions for projects considered to be of low operational utility in light of budgetary constraints. The Committee has reviewed the projects and believes most are valid requirements. The projects restored are as follows:

Georgia: Fort Benning: Chapel	$1,700,000
New York: U.S. Military Academy: Facility modernization	14,500,000
Germany: Giessen General Depot: Fuel station	3,500,000
Korea:	
Camp Casey: Tactical equipment shop modernization/addition	3,400,000
Camp Libby: Tactical equipment shop	1,100,000
Second Infantry: Organizational maintenance shop	2,350,000
Yongson: Upgrade tactical equipment shop	1,000,000

South Carolina, Fort Jackson: Soldier service center.—The Committee has provided $9,100,000 for this project added by the Senate Armed Services Committee as part of the authorization bill, S. 2638.

Community planning assistance for the light divisions in New York and Alaska.—The House provided $200,000 for Fort Drum, NY, taking a reduction to planning and design; no funds were provided for Alaska because the entire request was deferred. As discussed earlier in the report, the Committee has provided funds for both Fort Drum and Forts Wainwright and Richardson. Therefore, the Committee directs the Army to provide $200,000 to New York and $200,000 to Alaska to be taken from the planning and design account and to be used for community planning assistance related to the stationing of the light divisions. The Committee further directs that notification be made to the

BEST COPY AVAILABLE

Committee prior to the obligation of these funds indicating their purpose and justification.

Alabama, Fort Rucker: Army Aviation Museum.—The Committee agrees with the House position that the Army should submit a reprogramming request for funding of this project.

Pennsylvania, New Cumberland Army Depot: Eastern Distribution Center, phase II.—The Committee recommends $43,000,000 for this project. This additional amount combined with prior year funding will provide adequate first-year construction funding for this multiyear project.

Texas, Corpus Christi Army Depot: Power train facility.—The Committee has deleted the $2,250,000 added by the House for this project. The project was not part of the budget request and not authorized by the Senate.

Virginia, Fort Myer: Physical Fitness Training Center.—The Committee agrees with the House recommendation to defer funding for this $3,800,000 project. The Committee supports the House position that personnel assigned to Fort Myer make use of a new facility recommended in the bill at Henderson Hall, Marine Corps Headquarters, which is located adjacent to Fort Myer.

Kwajalein Island, unaccompanied officer housing.—The House reduced the budget request for this project by $2,000,000 based on high unit cost. The Committee disagrees with the House position because of the location and has recommended the budget request level of $11,000,000.

Pine Bluff, AR: Medical research on chemical warfare.—The Committee is concerned about the threat to U.S. military forces posed by Soviet chemical and biological weapons and commends the Department of Defense, and the Army in particular, for its ongoing program of chemical defensive measures, which the Committee and the Senate as a whole have strongly supported. The Committee urges the Department, however, to give greater attention to research on the medical treatment of chemical and biological warfare victims, using existing or modified facilities where possible, as an important aspect of our chemical defensive efforts. In this connection, the Committee urges the Army to give every consideration to the development of a chemical and biotoxin research facility in Jefferson County, AR, taking advantage of the proximity of the Pine Bluff Arsenal and the National Center for Toxicological Research.

Walson Army Hospital, Fort Dix, NJ.—The Committee understands that the Defense Medical Facilities Office is reviewing the requirements for upgrading and/or constructing a new facility at Fort Dix, NJ. The Committee is aware of the sorely inadequate facilities at Walson Army Hospital, particularly in light of the large population of military retirees in the area. The Committee is further aware of a $37,500,000 allocation in the 5-year budget plan (fiscal years 1988–92) for improvements to Walson. The Committee urges the Defense Medical Facilities Office to continue its efforts to provide improved medical facilities at Fort Dix.

Naval Guided Missiles School, Dam Neck: Submarine training building addition	3,140,000
Naval Surface Weapons Center, Dahlgren: Aegis education center addition	2,950,000
Navy Public Works Center, Norfolk: Steamplant improvements	5,600,000
Japan: Marine Corps Air Station, Futema, Okinawa: Engine maintenance shop	3,440,000

House reductions.—The House made reductions to several projects in scope and price estimate. The Committee believes the following projects reduced by the House are fully justified and recommends funding at the following amounts:

BEST COPY AVAILABLE

California:	
MC Air/Ground Center, Twentynine Palms: BEQ	$22,600,000
NSB, San Diego: BEQ	9,100,000
North Carolina, MCB, Camp Lejeune: BEQ	17,700,000
Guam: Mobile Construction Battalion, Camp Covington: Bachelor housing	15,500,000
Various locations: Access roads	5,400,000

House authorization reductions/deletions.—The Committee recommends funding at the levels noted for the following projects deleted or reduced by the House due to authorization:

Alaska: Naval Air Station, Adak:	
Construction management facility improvements	$500,000
Radar support facilities	24,400,000
California:	
Marine Corps Base, Camp Pendleton: Battalion operations center	1,080,000
Naval Construction Training Center, Port Hueneme: Automotive vehicle maintenance facility	1,470,000
District of Columbia: Naval Research Laboratory, Washington, DC: Physics laboratory improvements	8,730,000
Hawaii:	
Camp HM Smith-Oahu: Security headquarters	500,000
Marine Corps Air Station, Kaneohe Bay:	
Aircraft rinse facility	1,280,000
Corrosion control hanger	2,260,000
Naval Command Area Master Station, Eastpac, Honolulu: Antenna safety improvements	1,080,000
Navy Public Works Center, Pearl Harbor: Electrical distribution system improvements, phase I	18,200,000
Maine: Naval Shipyard, Portsmouth, Kittery: Engineering management building	10,900,000
Mississippi: Naval Construction Battalion Center, Gulfport: Seabee battalion operations facility	1,670,000
Nevada: Naval Air Station, Fallon: Electronic warfare range improvements	7,800,000
New Jersey: Naval Weapons Station, Earle: Ammunition pier and trestle	25,000,000
South Carolina:	
Marine Corps Air Station, Beaufort: Aircraft rinse facility	740,000
Marine Corps Recruit Depot, Parris Island: Recruit battalion operations facility	1,870,000
Tennessee: Naval Air Station, Memphis:	
Aviation ordnance training building	12,800,000
Entrance roads improvement	1,570,000
Virginia: Fleet Intelligence Center Europe and Atlantic, Norfolk: Intelligence building addition	1,880,000
Washington: Naval Submarine Base, Bangor:	
Bachelor enlisted quarters	4,900,000
Hazardous waste facility	1,280,000
Sewerage system	400,000
Australia: Naval Communication Station, Harold E. Holt: Public works shop	1,870,000
Italy: Naval Air Station, Sigonella: Chapel facilities	1,370,000
United Kingdom: Naval Activities, London: Consolidated personnel support facilities	1,118,000

Senate additions.—The following projects were authorized by the Senate, and the Committee supports the projects at the levels noted:

BEST COPY AVAILABLE

California: Marine Corps Air Station, El Toro: Runway extension	$14,400,000
South Carolina:	
Marine Corps Recruit Depot, Parris Island:	
Clothing issue	2,630,000
BOQ	4,620,000

Headquarters, Marine Corps, Henderson Hall, VA: Physical fitness center.—The Committee recommends funding of $3,020,000 as requested for the physical fitness center at the Marine Corps headquarters in Arlington. The project, as recommended, is contingent on the use of the facility being shared with military personnel stationed at Fort Myer, VA. The Committee directs that the Marine Corps report on how the facilities will be shared prior to award of the contract.

Naval Submarine Base, Kings Bay, GA—The Committee recommends $167,840,000 for facilities at the Navy's east coast Trident base. The amount recommended by the Committee includes a $10,000,000 general reduction. The Committee has recommended a general reduction for this base to allow the Navy flexibility to maintain the schedule of the construction program and meet the operational data of the base. The general reduction is not, however, to be applied against the $5,100,000 approved for community impact assistance. The projects approved are as follows:

Bachelor officer quarters	$3,440,000
Commander, submarine group office	1,550,000
Community impact assistance	5,100,000
Defense ordnance support facilities	3,440,000
Diesel fuel facilities	1,960,000
Dockside handling building	3,340,000
Dredging	50,400,000
Drydock	45,450,000
Fire station	350,000
Off-crew operations building	7,400,000
Provision warehouse	2,160,000
Ready stores facility	1,270,000
Refit support facility	2,950,000
Refit wharf	23,500,000
Strategic weapons magazines	16,700,000
Strategic weapons system second level maintenance shops	3,930,000
Utilities and site improvements	4,900,000
General reduction	10,000,000

Strategic homeporting initiatives.—The Committee recommends the level of funding included in the Senate authorization bill (S. 2638) for facilities at Staten Island, NY, and Everett, WA.

The Committee has had an opportunity to review the Navy's strategic homeporting initiative which calls for the dispersal of more than 60 ships from two carrier groups, three battleship groups, and Naval Reserve forces to 12 locations on the east, west, and gulf coasts of the United States and on Hawaii. The Committee believes that the strategic value of the plan has been demonstrated. The Committee has thus recommended the general provision included in the House bill that allows for a 5-year construction plan to cost no more than $799,000,000 for military construction.

BEST COPY AVAILABLE

The Committee agrees with the House report lanaguage which requires a report to the Committee on three issues: (1) a disposal plan for toxic waste dredged material; (2) costs sharing commitments; and (3) access road plans.

The Committee believes that the House language with regard to the dredging plan and disposal of 800,000 cubic yards of toxic material has been overtaken by events in that a recently released draft supplemental environmental impact statement [EIS] states that Navy's originally planned disposal method and site is acceptable and will undergo public review as scheduled. Therefore, the dredging permit is expected to be issued on time.

The Committee recommendation for projects at the two locations is as follows:

Naval Station, New York: Battleship support complex:	
Shore intermediate maintenance activity	$22,400,000
Supply warehouses	6,800,000
Bachelor enlisted quarters and mess hall	8,150,000
Bachelor officer quarters	2,450,000
Utilities and site improvement	22,400,000
General reduction	−6,000,000
Total	56,200,000
Naval Station, Everett: Carrier support complex:	
Carrier pier	$38,000,000
Dredging and breakwater	13,820,000
Shoreline improvement and seawall	15,700,000
Utilities and site improvement	19,070,000
Land acquisition	8,810,000
General reduction	−10,000,000
Total	85,400,000

Naval shipyard, Pearl Harbor, HI—Engineering facilities.—The engineering and management operations at Pearl Harbor Naval Shipyard are housed in semipermanent buildings constructed during World War II that have advanced stages of termite damage. A 1984 study determined that deficiencies in the existing buildings include overcrowded and dilapidated facilities, fragmented activity locations, inefficient space planning, and poor ventilation. Furthermore, in 1977 this facility was identified as a severe life safety hazard as a consequence of its serious fire hazard conditions. The Committee directs that the Navy immediately initiate design of the PHNS engineering facilities (P–215 and P–237) and that this project be included in the fiscal year 1988 budget request.

Naval Weapons Station, Earle, NJ.—The Committee is concerned that the current propsal for the expansion of the Naval Weapons Station at Earle, NJ, could pose an undue threat to the safety of neighboring communities and to the security of the station. The Committee feels that the proposed tank farm should not be located within close proximity to residential areas and that adequate and reasonable safeguards should be taken to prevent unwarranted public access to the expanded facility. The Committee understands that the Navy is reviewing its plans

BEST COPY AVAILABLE

for the Naval Weapons Station and expects to be kept apprised of the status of this review. The Committee further directs the Navy to submit plans for siting and construction of the tank farm to the Committee for prior approval.

Naval shipyard, Portsmouth, NH.—The Committee previously commended the Portsmouth Naval Shipyard for its consistently fine performance in the overhaul of nuclear-powered submarines. The Committee likewise noted that construction of a covered drydock to ensure continuation of repair and maintenance operations in all weather conditions was essential to the modernization of the shipyard's facilities. Accordingly, the Committee reiterates its directive to the Navy to expedite the design of a covered drydock for the Portsmouth Naval Shipyard and to submit a report outlining both design and construction schedules, as well as a cost estimate, to the Committee not later than December 1, 1986. Funds for initiation of the project are anticipated in the first budget submission following receipt of this report by the Committee.

Naval shipyard, Philadelphia, PA.—The Committee is aware of a project (P–436) for water distribution system improvements at the Philadelphia Naval Shipyard. This estimated $13,000,000 project is essential for the safety and health of the work force because the aged water distribution system does not provide sufficient water pressure in case of fire nor potable water for important locations within the shipyard. The Committee urges the Navy to put this project under design and to include it in the next available budget cycle.

Military Construction, Air Force

Fiscal year 1986 appropriation (adjusted)	$1,581,727,000
Fiscal year 1987 request	1,773,200,000
House allowance	1,220,130,000
Committee recommendation	1,257,710,000

The Committee has recommended an appropriation of $1,257,710,000 for the Air Force in fiscal year 1987. The recommendation amounts to a decrease of $515,490,000 from the budget request and an increase to the House recommendation of $30,580,000.

Specific program changes reflected in the Committee recommendation are discussed below: (See project listing at the end of the report for complete program recommendations.)

AUTHORIZATION REDUCTIONS

Budgeted projects.—The following projects were requested as part of the budget but have not been authorized by the Senate and, therefore, are not recommended by the Committee:

Alaska:	
Eielson AFB:	
Dining hall	$5,700,000
Library	2,500,000
Elmendorf AFB: Security police facility	5,000,000
Alabama: Maxwell AFB: Vehicle maintenance complex	3,100,000

Unspecified minor construction	16,000,000

OTHER PROGRAM CHANGES

Projects deferred due to budgetary constraints.—The projects listed below have been deferred due to budgetary constraints. The Committee has reviewed the projects and believes that none of the projects will have any impact on operational or readiness missions. The projects are as follows:

Alabama: Maxwell AFB: Add/alter academic facility	$1,700,000
Arizona: Luke AFB: F–16 wing headquarters facility	1,350,000
Arkansas: Blytheville AFB: Add/alter target intelligence facility	820,000
California:	
George AFB: Resource management facility	7,650,000
March AFB: Air division headquarters	2,200,000
Mather AFB: Accounting and finance facility	1,500,000
Travis AFB: Weapons systems maintenance management support facility	6,500,000
Colorado:	
Falcon AFS: Land acquisition	6,400,000
Peterson AFB:	
Add/alter security police facility	590,000
Troop subsistence storage facility	990,000
U.S. Air Force Academy:	
Add/alter BCE facilities	990,000
Add/alter security police facilities	600,000
Florida: Tyndall AFB: Consolidated training facility	1,500,000
Illinois: Chanute AFB:	
Liquid fuels training facility	2,600,000
Weather training facility	8,700,000
Maine: Bangor: Physical fitness facility	1,250,000
Michigan: K.I. Sawyer AFB: Add/alter combat arms training/maintenance facilities	740,000
Montana: Malmstrom AFB: KC–135R—alter headquarters operations facility	7,700,000

Unaccompanied enlisted personnel housing	6,000,000
RAF Wethersfield: 2d Echelon medical storage facility	650,000

Alaska, various locations.—The House reduced a number of projects in Alaska based on high unit costs. The Committee recommends full funding for all Alaskan projects authorized. The Committee makes this recommendation based on the belief that the prices are consistent with triservice experience on various types of projects as adjusted by the high area cost factor, as well as recent bid experience.

The Committee does not agree with the House position that modular construction should be designated on specific projects already designed and included in this program. Future projects should be done using modular construction on a trial basis.

At Shemya AFB, the Committee has restored full authorized funding, and supports all efforts to package construction projects at locations such as Shemya.

Holloman AFB, NM.—The Committee strongly disagrees with House report language which places a prohibition on the obligation of fiscal year 1987 military construction funds for projects at Holloman Air Force Base in New Mexico unless the Air Force reports on alternative flight plans for medium altitude supersonic flight operations in the Valentine military operations area. The current operations are the result of lengthy negotiations between the affected citizens and the Air Force, and the agreement is working quite well. The Committee directs the Air

BEST COPY AVAILABLE

Force to respond in a timely manner to inquiries relating to the flight operations, especially in the Valentine military opeations area, but the Committee specifically prohibits any restriction on construction funds for Holloman Air Force Base.

Keesler AFB, MS.—The Committee is aware of Air Force plans to move the Aircrew Survival Training School from Fairchild AFB, WA, to Keesler AFB, MS. Air Force cost estimates indicate that the move will avoid $40,800,000 in military construction costs at Fairchild and would save about $6,000,000 per year through lower travel and operating costs at Keesler. Therefore, the Committee has earmarked in the bill $324,000 for study, plan, design, architect and engineer services for the design of Keesler facilities in support of the Aircrew Survival Training School consolidation.

Vance Air Force Base, OK—Sewage waste treatment system.—The Committee has been made aware of the need for a new sewage waste treatment system at Vance Air Force Base. The Committee understands that the nearby city of Enid, OK, under a Clean Water Act court order deadline, is constructing a new system which would allow for a cooperative tie-in with Vance. Such a connection would save the Air Force money in future construction costs. The Air Force should review this proposal and include funds for the project in the next available budget cycle.

Altus Air Force Base, OK—Ramp space.—The Committee understands that Altus Air Force Base currently is working under an exemption for its aircraft parking. Altus is a major training base for the Military Airlift Command for the C-5 aircraft. The Air Force should include this vitally needed project in the next available budget cycle.

Tinker Air Force Base, OK—Warehouse.—The Committee has deferred without prejudice a $10,800,000 project for a new warehouse at Tinker Air Force Base. The project was deferred due to lack of Senate authorization. The Committee believes this is an important project and will give the project careful consideration during the conference on this legislation.

Authorization additions.—The Committee recommends funding for three projects added by the Senate authorization process:

New Mexico: Cannon AFB:	
Small aircraft maintenance dock	$4,700,000
Aircraft fuel system maintenance dock	2,550,000
South Carolina: Shaw AFB: Squadron operations building	1,200,000

Little Rock AFB, AR: Fuel systems maintenance facility.—The Committee notes that the Air Force is operating facilities which pose health and safety threats to military personnel and civilian employees, and that the Air Force recognizes this and has granted waivers permitting the continued operation of these facilities. The Committee is very concerned at this practice, and also recognizes that Congress must share some of the responsibility for this deplorable practice. In this regard, the Committee notes that the fuel systems maintenance facility at Little Rock Air Force Base, AR, is operating under Air Force waiver even

BEST COPY AVAILABLE

though it is deemed inadequate for its role and has major safety and environmental deficiencies. The Committee urges the Air Force to identify for the Congress such facilities and request military construction funds from the Congress on a priority basis so that these unsafe facilities can be modernized or replaced on an expedited basis.

MILITARY CONSTRUCTION, DEFENSE AGENCIES

Fiscal year 1986 appropriation (adjusted)	$172,488,000
Fiscal year 1987 request	762,100,000
House allowance	541,563,000
Committee recommendation	505,110,000

The Committee has recommended appropriations totaling $505,110,000 for projects considered within the "Defense agencies" account. The amount recommended reflects a decrease of $36,453,000 to the House figure and a decrease of $256,990,000 to the budget request.

Specific program changes reflected in the Committee recommendation are discussed below: (See project listing at the end of the report for complete program recommendations.)

Authorization reductions.—The following projects were not included in the Senate authorization for the Defense Department for fiscal year 1987 (S. 2638); therefore, the Committee has deferred funding as noted:

Alabama: Fort McClellan: Elementary school addition	$2,830,000
Alaska: Fort Wainwright: Troop medical and dental clinic	8,800,000
California:	
Fort Ord: Hospital addition	530,000
March AFB: Add/alter medical logistic facility	2,350,000
Vandenberg AFB: Add/alter medical center clinic annex	1,900,000
Georgia:	
Fort Benning: White Elementary School modernization/addition	1,080,000
Robins AFB: Robins and Linwood Elementary School additions	2,440,000
Kentucky:	
Fort Campbell: Middle school addition	1,340,000
Fort Knox: Elementary school gyms (six)	4,350,000
Maryland: Andrews AFB: Alter medical center clinic annex	2,000,000
New York: Governors Island: Elementary/junior high school addition/roof repair	2,600,000
North Carolina: Camp Lejeune: Tarawa Terrace/Stone Street/Delalip elementary additions	1,190,000
Virginia:	
Dahlgren: Elementary/junior high addition	1,130,000
Pentagon: Demolition of parking lot	2,500,000
Quantico: High school addition	420,000
Italy:	
Naples:	
Elementary/high school	19,950,000
Replacement hospital	29,300,000

Deferred projects.—The following projects have been deferred by the Committee due to budgetary constraints:

BEST COPY AVAILABLE

Colorado: Rocky Mountain Arsenal: Ground water treatment facility	[1] $6,000,000
Maryland: Bethesda Naval Hospital: Research support building	790,000
Virginia: Pentagon: JDSSC alter/expand	2,300,000
Japan: Defense Fuel Support Point Tsurmi: Fuel tankage	3,520,000
Overseas: Various locations: DOD dependent schools	71,830,000

[1] Unbudgeted project included in Senate DOD authorization (S. 2638).

House reductions.—The Committee recommends funding for the following projects which were deferred by the House:

California: Edwards AFB: Rocket propulstion brilion facility	$4,140,000
District of Columbia: Naval Research Lab: Pulse power research facility	3,200,000
Hawaii: Pacific Missile Range: Intermediate ballistic missile launch complex	2,890,000
Maryland: Fort Meade: Road improvements	4,370,000
New Mexico:	
Kirtland AFB: Add/alter composite medical facility	16,000,000
White Sands Missile Range: High endo defense interceptor launch complex	1,930,000
Pennsylvania: Defense Revitalization/Marketing Office, Mechanicsburg: Scrap yard improvements	1,290,000
South Carolina: Defense Fuel Support Point, NSC Charleston: Fuel tankage	5,130,000
Texas: Brooks AFB: Add/alter drug abuse detection lab	1,850,000
Utah:	
Defense Depot Ogden:	
Administration facilities	9,780,000
Transient housing	620,000
Washington: Defense Fuel Support Point, Mukilteo: Fuel pier	6,360,000
CONUS classified: Classified project	3,000,00
Germany: Bitburg: Defense R&M Office: Covered storage	650,000
Kwajalein: Missile range: Target launch complex	1,340,000

High unit costs.—The House made reductions to several projects based on high unit costs. The Committee, with one exception, agrees with the House reductions. The Defense Mapping Agency Aerospace Center in Missouri is funded at the budget request level of $16,700,000. The Committee supports full funding for this project based on the unusual requirements associated with the equipment in the facility.

Naval Air Station, Adak, AK—Dependent schools.—The Committee is aware of a critical situation at the Naval Air Station, Adak, AK, with regard to the need for a new dependent school.

Due to increased naval activity at NAS Adak, a projected 50-percent increase in school age dependents will take place beginning in fiscal year 1988. Because of the remote location, only children of military members and DOD civilians attend the schools. The existing facilities, both constructed with Federal funds, are at capacity.

The Committee understands that while the school serves only DOD dependents the State of Alaska has provided over one-half the operating funds for the school; the remaining funds are provided through Public Law 874 impact moneys.

The Committee directs the DOD Dependent Schools Agency to immediately review the situation at Adak to determine what is necessary to obtain a DOD appropriation for a new facility. The Committee further directs that a report on this review be submitted to the Committee not later than September 12, 1986. In addition, the Committee directs

BEST COPY AVAILABLE

the DOD Dependents Schools Agency to begin design on a new school immediately to allow for its inclusion in the fiscal year 1988 appropriation.

New Mexico, Los Alamos National Laboratory.—The Committee is in agreement with the language included in the House report which directs a feasibility study to be prepared addressing the establishment of an arms control center in conjunction with the current initiative establishing a center for national security studies at this location.

California, Travis AFB Hospital, phase IV.—The Committee has reduced the request for phase IV of the Travis AFB Hospital by $27,500,000. While the Committee supports the projects, it has come to the attention of the Committee that the current working estimate [CWE] for completion of this facility is some $10,000,000 over the amounts previously appropriated plus the fiscal year 1987 request. Based on the CWE and in order to avoid a large reprogramming request, the Committee directs the DOD Medical Agency to plan an additional phase for this hospital and to include it in the fiscal year 1988 budget request.

Virginia, Pentagon Annex.—The Committee is in full agreement with the House language on this complex in addition to the language included in the Senate DOD authorization bill (S. 2638). The Committee has not included any funds associated with this project—either for construction or planning and design.

Conforming storage facilities, various locations worldwide.—The Committee strongly supports the House language with respect to conforming storage facilities to be managed by the Defense Logistics Agency for the storage of hazardous waste materials. The Committee has provided for six projects by line item as follows:

Fort Stewart, GA	$730,000
NAS Brunswick, ME	510,000
Kirtland AFB, NM	620,000
Fort Bragg, NC	825,00
NSPCC Mechanicsburg, PA	318,000
Fort McCoy, WI	260,000

In addition, the Committee has provided the authorized level of $13,137,000 for other projects which may be awarded during fiscal year 1987. The House was unable to provide these funds due to lack of authorization by the House. It is the intent of the Committee to work with the House during the conference on this bill to come to a reasonable solution on this issue.

Brooke Army Medical Center, Fort Sam Houston, TX.—The Committee has included $10,000,000 for phase I of the design and construction of a new Brooke Army Medical Center [BAMC]. This facility has been at the center of lengthy debate for several years over the need and/sizing of a new facility. BAMC is the home of the world renowned Burn Center and Institute for Surgical Research. The Committee is aware that the Assistant Secretary of Defense for Health Affairs has approved a replacement hospital which includes the following specifications:

BEST COPY AVAILABLE

—Design of a 450-bed teaching hospital with initial construction of 200 beds which can be expanded, if required in the future, by 250 beds. Fifty beds of the initial construction will be devoted to the world's most modern Burn Center and Institute of Surgical Research.
—The hospital will include a state-of-the-art outpatient care center capable of providing nearly 1 million outpatient visits annually.
—The replacement hospital will be designed and sited to accommodate rapid expansion to 450 beds, if the military medical requirement makes that necessary in the future.

Under this plan, patient care will grow in quantity and quality as compared to care now provided in the San Antonio area. Graduate medical education and training programs will also continue under the auspices of a jointly staffed and operated Armed Forces Medical Center involving five military treatment facilities currently serving the San Antonio area: BAMC, Wilford Hall, Brooks, Kelly, and Randolph.

Also, teaching programs will be preserved in San Antonio, and level I trauma center care can be continued, providing unparalleled comprehensive ambulatory outpatient care for DOD beneficiaries in San Antonio.

Further, the proposal will allow San Antonio to remain the center for field medical training for the Army and activities related to the Health Services Command and the Academy of Health Sciences will be preserved.

The Committee has provided funding for this new facility through an offset (general reduction) of $10,000,000 to be taken from other Army medical facilities (including planning and design) included in the fiscal year 1987 appropriation. The Committee, by taking this position, does not support the House general provision on this matter nor the House provision to use $10,000,000 from Defense Agencies planning and design funds for initial site preparation at Brooke.

NATO Infrastructure

Fiscal year 1986 appropriation (adjusted)	$9,510,000
Fiscal year 1987 request	247,000,000
House allowance	247,000,000
Committee recommendation	232,000,000

The Committee recommendation for the "NATO infrastructure" account is $232,000,000. The Committee has made this reduction due to budgetary constraints. Detail on the Committee's recommendation for this account is discussed earlier in the report under "Items of Special Interest."

BEST COPY AVAILABLE

MILITARY CONSTRUCTION, GUARD AND RESERVE COMPONENTS

Fiscal year 1986 appropriation (adjusted)	$370,540,000
Fiscal year 1987 request	451,200,000
House allowance	435,541,000
Committee recommendation	472,296,000

The Committee recommends $472,296,000 for military construction projects for the Guard and Reserve components. This amount is $21,096,000 above the budget request and $36,755,000 above the House recommendation.

Individual component recommendations are as follows:

Component	Budget request	Committee recommendation
Army National Guard	$121,100,000	$133,271,000
Air National Guard	140,000,000	148,925,000
Army Reserve	86,700,000	86,700,000
Naval Reserve	44,500,000	44,500,000
Air Force Reserve	58,900,000	58,900,000

Specific program changes reflected in the Committee recommendation are discussed below: (See project listing at the end of the report for complete program recommendations.)

PROGRAM CHANGES

ARMY NATIONAL GUARD

The Committee recommendation for projects requested by the Army National Guard totals $133,271,000.

Utah, Draper: Military complex acquisition.—The Committee has restored the $5,376,000 deferred by the House for this very important project.

New Mexico: Adjunct military support complex.—The Committee supports the language included in the House report which directs the Army National Guard to investigate the feasibility of establishing a computer training center to service the training needs of the Guard nationwide in the area of Mora, San Miguel and Colfax Counties in New Mexico. The results of this study should be submitted by January 31, 1987.

Unbudgeted projects.—The House included a number of armory projects which were to be funded from within funds made available in fiscal year 1986 to the Army National Guard as part of the Defense Appropriation Act for fiscal year 1986. The Committee understands that those funds have been allocated and obligated for unit storage buildings at various locations and are, therefore, not available to cover the costs associated with the House addons. The Committee is unable, however, to provide funds for all of the House adds because they were not specifically authorized in the Senate-reported bill (S. 2638). The following projects have been included at the same amounts authorized by S. 2638:

BEST COPY AVAILABLE

Arizona:	
Chandler: Armory	$810,000
Tucson: Armory	1,576,000
Mississippi:	
Camp McCain:	
Combined support maintenance shop	1,745,000
Armory	1,410,000
Barracks and dining hall	625,000
Camp Shelby: Training facility, phase 2	4,451,000
Tennessee: Dyersburg: Armory	984,000
Wisconsin: Platteville: Armory renovation	570,000

AIR NATIONAL GUARD

The Committee recommendation for projects requested by the Air National Guard is $148,925,000.

Unbudgeted projects.—The Committee has included the following projects which are of a high priority to the Air National Guard and have been authorized in S. 2638 or previously authorized:

Pennsylvania: Harrisburg IAP: Operations, training, dining, and medical facilities	$3,600,000
West Virginia:	
Martinsburg (E. WV Regional Airport): Phase I ramp addition	2,500,000
Charleston (Kanawha County Airport): Multiple facility additions	625,000
Wisconsin: Mitchell Field: Composite facility	2,200,000

Tennessee, Memphis: 164th Airlift Group.—The Committee recognizes the unique capability of the Air National Guard component to perform strategic airlift missions in a cost-effective manner. The Committee believes the Air National Guard should initiate design of facilities to accommodate potential future strategic airlift missions. Specifically, the Committee directs the Air National Guard to reprogram $1,770,000 previously appropriated in fiscal year 1984 for a C–130 hangar facility for the 164th Airlift Group in Memphis, TN, to initate design of facilities to accommodate eight C–5A's which could be assigned to the Memphis unit.

Tennessee: McGhee-Tyson Airport: Air National Guard Professional Military Education Center [PMEC] facilities.—The Committee recommends that the Department of Defense support a reprioritizing of resources for the upgrade and expansion of inadequate PMEC facilities. This effort will provide the necessary military education training facilities to meet increased ANG mission requirements. The Department of Defense is, therefore, directed to support this reprioritization to accommodate the facility upgrade and expansion program. The Committee further directs that $9,500,000 be added to the fiscal year 1988–89 ANG MilCon budget request to fund the projects required for the first phase of this upgrade.

Niagara Falls International Airport, NY.—The Committee is concerned about the operating problems caused by a deteriorating runway condition at the Niagara Falls International Airport. This airport, operated as a joint use facility, is home to the 107th Air National Guard Group and the 914th Air Force Reserve Unit. The aircraft currently assigned to the 107th (the military units currently based at the airport)

BEST COPY AVAILABLE

require runway conditions exceeding standards established by the Federal Aviation Administration [FAA]. Both the current FAA classification of the airport and the FAA certification of the airport's compliance with FAA operational standards makes the airport ineligible for FAA funds. Due to the needs of the 107th, the Committee urges the Department of Defense to provide appropriate funding in order to maintain the runway in a state of good repair which can safely and reliably support current and future aircraft assigned to the units based at the airport. This funding should be programmed in the next available budget cycle. The Committee directs the Air National Guard to provide a report on the status of this project not later than January 31, 1987.

ARMY RESERVE

The Committee recommendation for the Army Reserve program for fiscal year 1986 is $86,700,000.

The House deferred funding for three projects requested by the Army Reserve. The Committee has reviewed the justification for these projects and believes the projects are necessary. The projects are as follows:

South Carolina: Florence: Land acquisition	$200,000
Virginia: Fort Lee: Add/alter reserve center	2,299,000
Puerto Rico: Fort Allen: Reserve center maintenance/storage	7,784,000

FAMILY HOUSING OVERVIEW

New construction.—The Committee has reviewed the request for new housing units of over $500,000,000 and over 5,500 new units of family housing. The Committee has supported the majority of the authorized units, but made some slight reductions because of budgetary constraints. Family housing is a high priority of the Department of Defense and the Committee has taken its priority into account in the consideration of this legislation.

The House has directed that projects included in the budget request at Fort Ord, CA; Aberdeen Proving Ground, MD; Naval Station, Long Beach, CA; and La Junta, CO, be designated to be constructed as manufactured/factory built. The Committee has continually supported the concept of manufactured/factory built housing and endorsed the changes incorporated into the requests for proposals which insure that all family housing projects can be built either as manufactured/factory built or as so-called stick built. The Committee believes that the existing requirements are adequate and provide equal competition for all interested parties. Therefore, the Committee disagrees with the House position.

Construction improvements.—This account is vitally important to maintaining the existing inventory of military family housing. The Committee supports the House position and expects the Department to continue with the policies established by the Committees in regard to this account.

BEST COPY AVAILABLE

Operations and maintenance accounts.—The moneys appropriated in these accounts allow for the day-to-day operation of military family housing, including such items as utilities. The Committee has made minor reductions in the individual service accounts for operations and maintenance due to budgetary constraint. These accounts and their amounts are noted in the detail of the service family housing accounts.

LEASING

The House has included extensive report language with regard to leasing of housing for military personnel. The Committee joins with the House in its concern over costs and future expenditures from the leasing account.

The Committee is aware that leasing and the so-called 801 Build-To-Lease Program is helping to solve the 40,000-unit CONUS housing deficit. The Committee also believes that military costruction funding alone will not be able to solve the housing deficit in a timely manner. Other alternatives must be considered.

The House has directed in report language that a moratorium on 801 leasing be imposed in fiscal year 1987. The Committee disagrees with the House proposal.

The Committee believes that the issue of leasing should be discussed as part of the conference on this legislation. And, in addition, the Committee believes that the four military construction subcommittees involved in this process (House and Senate Armed Services, and House and Senate Appropriations) should establish a unified position to allow the Department of Defense to better plan for future family housing requirements.

The Committee is concerned that the Department is not coordinating its plans for family housing in the future. Based on this concern, the Committee directs the Office of the Secretary of Defense to report to the appropriate committees not later than January 31, 1987, on what criteria will be used to select appropriate family housing programs in the future. The report should address the deficit of housing units and a multiyear plan to meet the needs of the services and defense agencies.

The Committee is hopeful that with the full cooperation of the Department that future family housing programs can be cost effective using various alternatives.

FAMILY HOUSING, ARMY

Fiscal year 1986 appropriation (adjusted)	$1,375,089,000
Fiscal year 1987 request	1,740,646,000
House allowance	1,573,991,000
Committee recommendation	1,667,977,000

The Committee recommends $1,667,977,000 for family housing, Army in fiscal year 1987 which is $72,669,000 below the budget request and $93,986,000 above the House recommendation.

NEW CONSTRUCTION

The Committee has approved funding for new construction as listed below:

Location/project	Requested	Recommended
New construction:		
Alaska: Fort Wainwright: 150 units	$33,000,000	$33,000,000
California:		
Fort Irwin: 38 sites	730,000	730,000
Fort Ord: 385 units	34,000,000	34,000,000
Louisiana: Fort Polk: 583 units	37,000,000	37,000,000
Maryland: Aberdeen Proving Ground:		
140 units	9,700,000	9,700,000
70 sites	1,100,000	1,100,000
New York:		
Fort Drum: 1,200 units	91,000,000	91,000,000
Seneca Army Depot: 30 units	2,900,000	2,900,000
Germany:		
Crailshein: 40 units	4,100,000	4,100,000
Darmstadt: 40 units	3,150,000	3,150,000
Erlangen: 106 units	9,400,000	9,400,000
Herzo Base: 34 units	3,300,000	3,300,000
Mainz: 20 units	1,850,000	0
Schweinfurt: 90 units	8,400,000	8,400,000
Vilseck: 224 units	21,000,000	21,000,000
Wildflecken: 24 units	2,050,000	2,050,000
Italy: Livorno: 90 units	7,700,000	0
Kwajalein: Kwajalein: 136 units	23,000,000	23,000,000

CONSTRUCTION IMPROVEMENTS

The Committee has recommended the Senate authorized level of $146,000,000 for this account.

PLANNING AND DESIGN

The Committee recommends $24,000,000 for this account as requested in the budget.

GENERAL REDUCTION

The Committee has recommended a general reduction to the "Family housing, Army construction" account in the amount of $30,000,000.

OPERATION, MAINTENANCE, AND LEASING

The Committee has reviewed the budget request for each of the accounts in these categories. The budget request of $1,269,203,000 has been reduced by $33,119,000 as follows:

BEST COPY AVAILABLE

	Budget request	Committee recommended
Operating expenses:		
Management account	572,686,000	$70,000,000
Services account	44,719,000	44,719,000
Furnishings account	120,815,000	108,815,000
Miscellaneous account	650,000	650,000
Utilities account	266,596,000	262,000,000
Leasing	173,885,000	169,900,000
Maintenance of real property	567,852,000	560,000,000

Family Housing, Navy

Fiscal year 1986 appropriation (adjusted)	$648,788,000
Fiscal year 1987 request	792,913,000
House allowance	712,494,000
Committee recommendation	713,366,000

The Committee recommends $713,366,000 for family housing, Navy in fiscal year 1987 which is $79,547,000 below the budget request and $872,000 above the House allowance.

NEW CONSTRUCTION

The Committee has approved funding for new construction as listed below:

Location/project	Requested	Recommended
New construction:		
California:		
Marcor Air-Grand Comb Ctr: Twentynine Palms:		
392 units	$33,900,000	$33,900,000
75 sites	1,400,000	1,400,000
Marine Corps Base, Camp Pendleton: 100 sites	1,800,000	1,800,000
NAS Moffett Field: 126 units	11,600,000	11,600,000
Naval Station, Long Beach: 300 units	22,900,000	22,900,000
Public Works Center, San Francisco: 300 units	26,450,000	26,450,000
New York: Naval Station, New York: 300 units	28,330,000	
North Carolina: Marine Corps Base, Camp Lejeune: 75 sites	930,000	930,000
Virginia: Marcor Dev Edu Com, Quantico: 50 sites	790,000	790,000
Iceland: Naval Station, Keflavik: 250 units	48,642,000	28,642,000

CONSTRUCTION IMPROVEMENTS

The Committee recommends $46,000,000 for the account. The recommendation is $5,580,000 below the budget request and $2,580,000 below the House recommendation.

PLANNING AND DESIGN

The Committee recommends $2,000,000 for the "Planning and design" account. This level is consistent with the budget request and the House recommendation.

BEST COPY AVAILABLE

GENERAL REDUCTION

The Committee has recommended a general reduction to the "Family housing, Navy construction" account in the amount of $6,500,000.

OPERATION, MAINTENANCE, AND LEASING

The Committee has reviewed the budget request for each of the accounts in these categories. The budget request of $553,520,000 has been reduced by $19,137,000 as follows:

	Budget request	Committee recommended
Operating expenses:		
Management account	$44,730,000	$40,000,000
Services account	31,553,000	31,000,000
Furnishings account	14,124,000	12,124,000
Miscellaneous account	437,000	400,000
Utilities account	172,071,000	167,000,000
Leasing	22,459,000	18,859,000
Maintenance of real property	268,146,000	265,000,000

Jamestown Exposition housing.—The House has placed a limit of $15,000 per unit that can be spent on 11 of the Jamestown Exposition houses in the Navy's inventory. The Committee believes that the limit is too restrictive and imposes unrealistic constraints on the proper management of these historic structures. Because of the nature of these quarters and the community pressure to ensure that the units are properly preserved and maintained, the Committee believes that they should be utilized as family housing and be maintained and operating using the normal budget process.

FAMILY HOUSING, AIR FORCE

Fiscal year 1986 appropriation (adjusted)	$806,926,000
Fiscal year 1987 request	860,409,000
House allowance	807,420,000
Committee recommendation	832,935,000

The Committee recommends $832,935,000 for family housing, Air Force in fiscal year 1987 which is $27,474,000 below the budget request and $25,515,000 above the House recommendation.

NEW CONSTRUCTION

The Committee has approved funding new construction of family housing units for the Air Force as follows:

BEST COPY AVAILABLE

Location/project	Requested	Recommended
New construction:		
Arizona: Davis-Monthan AFB	$300,000	$300,000
California:		
Beale AFB	180,000	180,000
Edwards AFB: 24 sites	376,000	376,000
Colorado: La Junta: 40 units	4,000,000	3,400,000
New Jersey: McGuire AFB	325,000	325,000
North Carolina: Pope AFB	300,000	300,000
Germany:		
Bitburg AB: 332 units	26,415,000	26,415,000
Hahn AB: 150 units	11,300,000	11,300,000
Korea: Osan AB: 1 unit	160,000	

CONSTRUCTION IMPROVEMENTS

The Committee has recommended $58,644,000 for this account which reflects the Senate authorized level and the budget request.

PLANNING AND DESIGN

The Committee recommendation is the same as the House at $7,000,000.

GENERAL REDUCTION

The Committee has taken a $7,000,000 general reduction from the "Family housing, Air Force construction" account.

OPERATION, MAINTENANCE, AND LEASING

The Committee has reviwed the budget request for each of the accounts in these categories. The budget request of $744,044,000 has been reduced by $19,714,000 as follows:

	Budget request	Committee recommended
Operating expenses:		
Management account	$29,969,000	$28,500,000
Services account	23,992,000	23,592,000
Furnishings account	48,872,000	45,000,000
Miscellaneous account	6,462,000	4,462,000
Utilities account	247,289,000	238,000,000
Leasing	79,776,000	79,776,000
Maintenance of real property	307,684,000	305,000,000

FAMILY HOUSING, DEFENSE AGENCIES

Fiscal year 1986 appropriation (adjusted)	$15,755,000
Fiscal year 1987 request	17,600,000
House allowance	16,470,000
Committee recommendation	17,290,000

The Committee recommends $17,290,000 for family housing, Defense Agencies in fiscal year 1987 which is $310,000 below the budget request and $820,000 above the House recommendation.

BEST COPY AVAILABLE

NEW CONSTRUCTION

The Committee has approved $250,000 for the construction of new housing at a classified location for the National Security Agency.

OPERATIONS, MAINTENANCE, AND LEASING

The Committee has reviewed the budget request for these accounts totaling $17,330,000. The recommendation for the accounts is as follows:

	Budget request	Committee recommended
Operating expenses:		
Services account	$8,000	$8,000
Furnishings account	2,013,000	1,750,000
Miscellaneous account	578,000	578,000
Utilities account	197,000	197,000
Leasing	14,027,000	14,000,000
Maintenance of real property	509,000	509,000

HOMEOWNERS ASSISTANCE FUND

Fiscal year 1986 appropriation	.....
Fiscal year 1987 request	$6,000,000
House allowance	.....
Committee recommendation	3,000,000

The Committee recommends $3,000,000 to be appropriated for the accounts involved in the Homeowners Assistance Fund. The Committee has taken the reduction based on estimated expenditures in fiscal year 1987. If additional funds are required, the Department should consider a reprogramming from an appropriate account.

BEST COPY AVAILABLE

GENERAL PROVISIONS

The Committee has made no changes to sections 101 through 109, 111, 112, and 114 of the general provisions included in the House bill. Other changes are as follows:

Section 110. This provision prohibits the Defense Department from paying property taxes for military construction or family housing to foreign nations. The Committee supports the basic concept of the provision; however, the Committee has inserted language as follows:

except where required by nation-to-nation agreements.

This clause is necessary because of the status of forces agreements between the United States and some foreign nations which have U.S. military installations.

Section. 113. The House included a general provision which prohibits the sale of Fort DeRussy, HI. The provision has been carried in this bill for many years; however, the need for this provision has been overtaken by events in that the sale of this land is now in the best interest of the Government. The Committee has included a new gene: provision which allows for the sale and/or transfer of the property. The provision is as follows:

SEC. 113. (a) Notwithstanding any other provision of law, including but not limited to section 809 of the Military Construction Act, 1968, section 807(d) of the Military Construction Act, 1984, or any provision of an annual Appropriation Act restricting the use of funds for the sale, lease, rental, or excessing of any portion of land currently identified as Fort DeRussy, Honolulu, Hawaii, the Secretary of Defense (hereinafter referred to as the "Secretary") is prohibited to sell or convey, except to the State of Hawaii or the city and/or county of Honolulu and at the appraised fair market value as determined by the Secretary, all right title and interest of the United States in up to forty-five acres of land and improvements northwest of Kalia Road comprising a portion of Fort DeRussy, Hawcii, to the City and County of Honolulu or the State of Hawaii, upon such terms and conditions as are acceptable to the Secretary. The exact acreages and legal descriptions of the property to be sold under this section shall be determined by surveys which are satisfactory to the Secretary. The cost of any such surveys shall be borne by the buyer.

(b) The Secretary is authorized to acquire land and design and construct such facilities as are necessary to replace those on the land to be sold pursuant to subsection (a). The Secretary is

BEST COPY AVAILABLE

also authorized to relocate activities currently located at Fort DeRussy to such replacement facilities.

(c) The proceeds of the sale authorized to be conducted pursuant to subsection (a) shall be available without fiscal year limitation to acquire land and replace facilities authorized to be acquired or constructed pursuant to subsection (b) and to pay associated relocation costs. The remainder of the proceeds shall be converted into the Treasury as miscellaneous receipts.

(d) Any action under this section shall insure adequate parking for the Hale Koa Hotel—Armed Forces Recreational Area. Authority provided by subsections (b) and (c) shall extend to replacement and relocation of facilities at Fort Shafter to another site to accommodate relocation of Reserve facilities from Fort DeRussy.

Section 115. The Committee has deleted this provision which deals with the beddown of F–16 aircraft at Misawa, Japan and the level of funding to support this program associated with the Japanese facilities improvement program. The Committee believes this general provision is no longer necessary since the F–16 beddown is basically complete.

Section 116. Renumbered section 115 in the Senate bill. The provision provides that U.S. firms or U.S. firms in joint venture with host nation firms should be awarded architect and engineering contracts in Japan or in any NATO member country if the award exceeds $1,000,000. The Committee supports this provision as it was included in the fiscal year 1986 bill. The House changed the award to exceed $500,000. The Committee has not been given any information which would warrant such a change.

Section 117. Renumbered section 116 in the Senate bill. The House provision provides incentives for U.S. contractors in the Pacific and on Kwajalein Island. The provision, as included in the fiscal year 1986 bill, used $5,000,000 and above as the amount over which foreign contractors could not receive the contract unless certain restrictions were met. The House lowered the threshold to $1,000,000. The Committee believes that the $5,000,000 provides incentives for U.S. firms and has been given no information to warrant the House change.

Section 118. Renumbered section 117 in the Senate bill.

Section 119. Renumbered section 118 in the Senate bill.

Section 120. Renumbered section 119 in the Senate bill.

Section 121. Renumbered section 120 in the Senate bill.

Section 122. Renumbered section 121 in the Senate bill.

Section 123. The Committee has deleted this provision included by the House. The provision involves shipyard liabilities which should be addressed as part of the Defense appropriations bill where funding for shipyard work is included.

Section 124. Renumbered section 122 in the Senate bill.

Section 125. This provision included by the House involved the Brooke Army Medical Center in Texas. The Committee position is discussed earlier in the report under the Defense Agencies account title.

REST COPY AVAILABLE

COMMITTEE RECOMMENDED PROVISIONS

Section 123. The Committee has included this provision which was adopted during conference consideration of last year's bill and was incorporated into the fiscal year 1986 act. The section places a limit on expenditures for consultants and consulting services. The text of the provision is as follows:

SEC. 123. Of the total amount of budget authority provided for fiscal year 1987 by this Act that would otherwise be available for consulting services, management and professional services, and special studies and analyses, 10 per centum of the amount intended for such purposes in the President's budget for 1987, as amended, for any agency, department or entity subject to apportionment by the Executive shall be placed in reserve and not made available for obligation or expenditure: Provided, That this section shall not apply to any agency, department or entity whose budget request for 1987 for the purposes stated above did not amount to $5,000,000.

Section 124. The Committee has included this provision which is identical to a provision in last year's act. The section provides that funds appropriated in this act may not be made available to any nation that the President certifies to Congress is not taking adequate steps to cooperate with the United States in stemming the flow of narcotic drugs and other controlled substances into this country. The text of the provision is as follows:

SEC. 124. (a) None of the funds appropriated in this Act may be available for any country if the President determines that the government of such country is failing to take adequate measures to prevent narcotic drugs or other controlled substances cultivated or produced or processed illicitly, in whole or in part, in such country, or transported through such country, from being sold illegally within the jurisdiction of such country to United States personnel or their dependents, or from being smuggled into the United States. Such prohibition shall continue in force until the President determines and reports to the Congress in writing that—

(1) the government of such country has prepared and committed itself to a plan presented to the Secretary of State that would eliminate the cause or basis for the application to such country of the prohibition contained in the first sentence; and

(2) the government of such country has taken appropriate law enforcement measures to implement the plan presented to the Secretary of State.

(b) The provisions of subsection (a) shall not apply in the case of any country with respect to which the President determines that the application of the provisions of such subsection would be inconsistent with the national security interests of the United States.

BEST COPY AVAILABLE

Section 125. This provision is included to clarify a provision included in the Urgent Supplemental Appropriations Act of 1986, Public Law 99–349. It is technical in nature and allows the Army to pay claims out of appropriated moneys in the absence of legal liability on the part of the United States—that is, without negligence of a Government agent or employee. The clause added reads:

without a determination of legal liability based on an act or omission of an agent or employee of the Federal government.

The amendment reads as follows:

SEC. 125. Section 4, Chapter III of Public Law 99–349, dated July 2, 1986, is amended to read as follows: Of the amounts available to the Department of Defense, not to exceed $5,000,000 shall be available for such claims arising from property losses caused by the explosion of Army munitions near Checotah, Oklahoma, on August 4, 1985, and claims determined by the Department to be bona fide shall be paid from the funds made available by this section without a determination of legal liability based on an act or omission of an agent or employee of the Federal Government.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI, OF THE STANDING RULES OF THE SENATE

Paragraph 7 of Rule XVI requires that Committee reports on general appropriations bills identify each Committee amendment to the House bill "which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session."

All projects for which appropriations are provided in amendments by the Committee are unauthorized. Authorization for all but the following projects are contained in S. 2638, the National Defense Authorization Act for Fiscal Year 1987, now pending before the Senate:

Army: Fort Campbell, KY: Aircraft maintenance hanger	$16,500,000
Dugway Proving Ground, UT: Community center	3,200,000
Navy:	
NSC Pearl Harbor, HI: Cold storage facility	11,500,000
Surface Warfare Officers School Command, Newport, RI: Officer training facility	8,800,000
Air Force:	
Andrews AFB, MD: Air Force One maintenance and support complex, phase I	25,000,000
Hill AFB, UT: Logistics Systems Operations Center	11,500,000
Morocco: Various locations: Petroleum resupply system	25,400,000
Defense Agencies: Fort Sam Houston, TX: Brooke Army Hospital, phase I	10,000,000

COMPLIANCE WITH PARAGRAPH 12, RULE XXVI OF THE STANDING RULES OF THE SENATE

Paragraph 12 of Rule XXVI requires that Committee reports on a bill or joint resolution repealing or amending any statute or part of any statute include "(a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the committee."

In compliance with this rule, the following changes in existing law proposed to be made by the bill are shown as follows: existing law to be omitted is enclosed in black brackets; new matter is printed in italic; and existing law in which no change is proposed is shown in roman.

The Committee has included a provision section 125 to clarify a provision included in the Urgent Supplemental Appropriations Act of 1986, Public Law 99–349. It is technical in nature and allows the Army to pay claims out of appropriated moneys in the absence of legal liability on the part of the United States—that is, without negligence of a Government agent or employee. The clause added reads:

> *without a determination of legal liability based on an act or omission of an agent or employee of the Federal government.*

The amendment reads as follows:

> SEC. 125. Section 4, Chapter III of Public Law 99–349, dated July 2, 1986, is amended to read as follows: Of the amounts available to the Department of Defense, not to exceed $5,000,000 shall be available for such claims arising from property losses caused by the explosion of Army munitions near Checotah, Oklahoma, on August 4, 1985, and claims determined by the Department to be bona fide shall be paid from the funds made available by this section *without a determination of legal liability based on an act or omission of an agent or employee of the Federal Government.*

Public Law 99–10, 99 Stat. 29, is amended as follows:

TITLE II

FUNDS APPROPRIATED TO THE PRESIDENT

EMERGENCY RESERVE FOR AFRICAN FAMINE RELIEF

In addition to funds and authority provided for in chapter I of title I of this Act, [$225,000,000] *$525,000,000* to remain available until September 30, 1986, is provided as an Emergency Reserve for African Famine Relief for title II of Public Law 480, including inland transportation, to be used if funds

BEST COPY AVAILABLE

and authority provided in chapter I of title I are exhausted and the Administrator of the Agency for International Development prepares and submits to the Congress a plan to utilize such additional funds for African famine relief. Before such funds may be obligated or expended, the President shall certify that the use of such funds is essential to famine relief in Africa.

TITLES II AND III

Aid for Nicaraguan Democratic Resistance

The Committee has approved the transfer to the President of $100,000,000 from the 1986 Defense Appropriations Act for the purpose of assisting the Nicaraguan resistance forces. The amounts recommended and the provisions governing the use of these funds parallels those contained in the legislation passed by the Senate in March of this year.

Accountability for these funds, as well as policy guidance and coordination, shall be the responsibility of the Secretary of State. Of the total amount, $30,000,000 will be available only for the provision of humanitarian assistance to the democratic resistance forces.

The sum of $40,000,000 would be available for obligation or expenditure upon enactment. The remainder of the $100,000,000 may not be obligated until the President has reported to Congress that efforts to reach a negotiated agreement have not been successful; that the resistance forces have taken steps to insure that appropriate accounting procedures exist; and that a series of reform measures have been undertaken by the resistance forces.

In the event that negotiations are successful or a serious dialog begins between the Government of Nicaragua and the democratic opposition, all military assistance ceases and any remaining funds will be used for relief and reconstruction in Central America.

Aid for Central American Democracies

The Committee has recommended an appropriation in the amount of $300,000,000, as requested by the President in his June 24, 1986, speech, for economic aid to the Central American democracies of Costa Rica, El Salvador, Guatemala, and Honduras. These funds will be used to continue the efforts being made to implement the recommendations of the National Bipartisan Commission on Central America. That Commission reported to the President in January 1984 that the fundamental interests of the United States required a national commitment to human development and democracy in Central America.

The House amendment had proposed using unobligated fiscal year 1986 funds from several accounts, including the emergency reserve for African famine relief and the Public Law 480 Overseas Food Aid Program, as sources of funding for the Central American economic assistance. In title III, the Committee has increased the amount available in the famine relief account by $300,000,000 in order to leave the balance

BEST COPY AVAILABLE

of these and other Public Laaw 480 moneys available for possible future obligation in the overseas food aid programs.

Commission on Negotiations

A five-member Commission on Central American Negotiations is established. Its members are to be appointed by House and Senate leaders of both parties. The Commission will monitor the efforts of the democratic resistance forces to comply with the requirements contained in the legislation and will report to the Congress on such matters as the status of negotiations, the disbursement and accounting of funds, and human rights violations.

Endorsement of Recommendations

The Committee believes that this package of recommendations provides opportunity and incentive for a negotiated settlement to the conflict in the region and for national reconciliation in Nicaragua.
